Emu Roof Topper

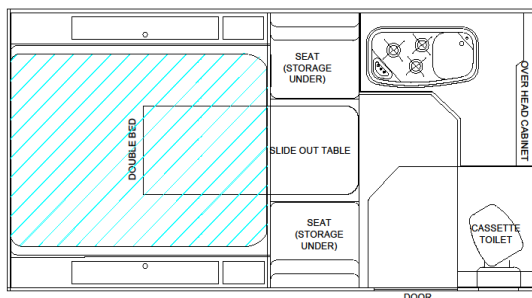

2.0 TS

The Emu Roof Topper is our slide-on camper with a full pop top roof. The interior is the same layout as the Leven, with the exception of canvas/mesh windows and overhead cupboard attached to the ceiling. The electric heavy lift actuators make lifting the roof a breeze.

The Emu Roof Topper's low profile is designed for people who wish to get off the beaten track or those who wish to carry canoe/kayaks or even small dinghies on the roof. The low profile is also convenient for storage purposes.
